Protect Your Family and Loved Ones

Children

Because most children will not need to use their identities **until they turn 16**, fraud can go undetected for years.

Gen Y & Millennials

44% of 18 to 34 year olds believe that businesses keep their personal information safe and secure all or most of the time.

Gen X

1/3 of GenXers trust businesses to protect their personal information all or most of the time.

Boomers

are bombarded by schemes to con them out of Medicare benefits, tax refunds, bank information, and savings.

Seniors

Identity thieves prey upon older people because **they are vulnerable.**

SUBSCRIBING TO ID WATCHDOG SERVICES COME WITH GREAT BENEFITS
